Aboriginal medicine.
General purpose antiseptic and antifungal. Helps relieve itching.

Caution

Nothing in this brochure is to be taken as offering medical advice. To comply with NZ law our products are offered as "Antiseptics".

Cessation of pain or symptoms is no guarantee that an underlying cause has ceased. Keep in contact with your Doctor. Let them know of use. There may be over 100 active chemical ingredients in each preparation. Legally, no therapeutic property is claimed for any one of them for any user.

We have taken care to review both traditional uses and current science. On balance our assessment is that an occasional small application is probably more helpful than otherwise.

Ingredients in our formulations may be used in food production and are "Generally Regarded As Safe". All used as per Australia's regulatory TGA list.

[APPLICABLE :rubiton.co.nz/terms-and-conditions](http://rubiton.co.nz/terms-and-conditions)
